## 1. Data Archive works

- 1999-2007 @ ISAS & JAXA

1999-2002 Design of 'first Planetary Database' for Nozomi, Mars orbiter  
*stopped by its power system trouble @ Apr. 2002*

2000- Core member of 'BepiColombo' project at JAXA side  
*One of the role is the counterpart of Joe Zender @ ESTEC, and had pushed him toward 'the international standard'.*

- Now No clear role: **JAXA does not have 'PDS-like' open-commitment system from Outside for such 'infrastructure works'.**  
**For the promoting this work, some new scheme will be established, as 'External Pressure' to JAXA**

## 2. Now

- Prof., Department of Geophysics, Tohoku Univ.  
Terrestrial Magnetospheric Science  
by Akebono, Geotail, Reimei, Cluster, Themis etc.  
Planetary Atmospheric & Magnetospheric Research  
by Planet-C, BepiColombo, Exceed, MEX/VEX, etc.  
& Ground-based IR/submm observations
- PI/Co-I for several Radio/Plasma wave instruments  
Co-I for several Infrared instruments
