

Website Development Project Minutes

Telecon was held on: Jan 17, 2012, 8:00 PST, 17:00 ECT

Participants: Sean Kelly, Sean Hardman, Pedro Osuna, Dan Crichton, Emily Law

Meeting Summary:

1. Discussed Sean Kelly's project page proposal "Making a home for projects on the site" at:

<http://planetarydata.org/projects/active-projects-for-2011-2012/website-development/making-a-home-for-projects-on-the-site/>

Pedro was not able to review till it was made public.

Workflows could be in 2 states: "Private" & "Published". Better to tie workflow to Standards process and publishing process described in the IPDA

Standardization Procedure document being written by Crichton, Osuna and Krishna.

It was recommended that the Secretary of IPDA Steering Committee (SC) be the person who can publish Standards and Public information after being approved by the SC. It was also suggested that all other site pages be built as wiki pages, and can be editable by all IPDA members.

2. Crichton to send IPDA Standardization Procedure document to this project team.

3. Discussed IPDA website layout sketched by Osuna (see picture below). It was based on NASA Science site: (<http://science.nasa.gov/>).

4. Kelly to prototype the home page and a project page (using Web Development Project as an example) within the next 2 weeks and make available for preview prior to next telecon.

5. Next telecon to be held on January 31, 2012 @ 8:00 PST, 17:00 ECT to discuss prototype results. Emily to send notice of meeting.
