

Website Development Project Minutes

Telecon was held on: June 19, 2012, 8:00 PDT, 17:00 CEST

Participants: Sean Kelly, Dan Crichton, Emily Law

Meeting Summary:

The latest IPDA prototype site is now publicly available at: <http://ipda.jpl.nasa.gov>

We walked through the site and the project report for July Steering Committee meeting.

The following changes were requested:

1. Add "About" page for outreach to include info such as IPDA overview, focus (collaboration, interoperability), organization (SC list, TEG list), how to join, etc.
2. Create new home page graphic (but keep the link to registry on it)
3. 5th SC meeting: put minutes in "Minutes" folder
4. Rename "Drivers" folder to "Background"
5. Convert all documents to pdf or html but keeping original docs
6. For "Miscellaneous" folder, delete "Administration", "TR" and "System Architecture" folders
7. Make left hand panel headers consistent
8. Documents folders table view should all be alphabetical order
9. For "TEG" folder, delete Workspace, mailing list, combine Bremen meeting and telecons under "Meetings" in chronological order
10. Link TEG to TEG and SC organization in "About" page
11. Add new rules to project report.

Action items:

1. Kelly to make the changes by end of this week.
2. Emily to distribute updated report
